

UHF | RAIN - Desktop Printers TSC - MB241 Series

- 203/300 dpi, up to 12"/sec print speed
- Thermal transfer and direct thermal
- 8" OD media, 450m ribbon capacity
- RAIN UHF RFID, on-metal tags to 1.65mm
- Wi-Fi/Bluetooth 5.0 MFi connectivity

UHF | RAIN - Desktop Printer Rugged Space-Saver for Heavy Duty Printing

The MB241 Series delivers 203 or 300 dpi resolution at print speeds up to 12"/sec, combining thermal transfer and direct thermal printing in a die-cast all-metal mechanism built for high-volume durability. A bifold media door cuts operational space by 24%, while adjustable printhead pressure and heat line ensure consistent output across diverse media, including harder, thicker hangtags.

Connectivity spans RS-232, USB 2.0, Ethernet, USB host and optional Wi-Fi 802.11 a/b/g/n/ac with Bluetooth 5.0 MFi. RAIN UHF RFID supports Encode During Print and on-metal tags up to 1.65mm. Optional cutter, internal rewinder, peel-off, linerless and RFID kits extend versatility, while TSC Sense Care monitors printhead health to prevent downtime.

Auto-switch emulation, SOTI Connect and TSC Console simplify fleet deployment. With 100% recyclable casing and over 90% recyclable components, the MB241 pairs performance with sustainability.

Common Applications

- Inventory management
- Shipping label
- Pharmacy labeling
- Product labelling
- Track and trace
